

# Come Eat & Shop

on **Main Street** in New London

**Businesses on Main Street** will remain **open** during construction, and they are all excited to see your faces!

**Parking** may be challenging in front of businesses but please note there is parking available at the **Municipal Parking lot** (on the corner of Main Street and Pleasant).

Get those steps in!

The New London-Springfield Water System Precinct encourages people to brave the construction and to continue to support the wonderful businesses on Main St.

*They are the heart of our town.*

*Please contact the New London-Springfield Water System Precinct with any questions or concerns with the Main Street Project.*
