

Commissioners
Superintendent's Report

May 4, 2026

System Usage	2026	2025
April	6,496,739	6,530,000
Daily Average	216,558	217,666
Max Daily	392,679	310,000
Year to Date	25,700,363	24,520,000

1. Meter reading is done and Maggi has the bills out the door.
2. A&D instruments are in the process of ordering parts for the tank communication system. Once they have the components, they will get us scheduled.
3. I have put out notices for the first round of service line identification. Seneca and Son will begin those this month.
4. The service line leak at Highland Ridge has been repaired. Micah Seneca was able to talk them into replacing all five service lines in this area from the main to the curb stops.
5. Jon Dame is back and started work today.
6. The main piston on the backhoe bucket was leaking. Marc's Mobile performed the repair.

Workload

Backflow Testing
Quarterly Sampling
Hydrant Flushing

Respectfully Submitted,

Rob Thorp
