

Commissioners
Superintendent's Report

July 7, 2025

System Usage	2025	2024
June	7,430,000	8,030,000
Daily Average	247,666	267,666
Max Daily	370,000	400,000
Year to Date	38,470,000	35,460,000

1. Flushing is complete. No issues were noted.
2. We had a water main break on June 20, in Birch Acres. New London DPW assisted with the repair.
3. Maggi updated our Water Conservation pamphlets. I dropped them off with other water conservation materials to Spring Ledge Farm. They are going to put up a display at the farmstand.
4. Our Sanitary Survey is tomorrow at 12:30. I expect everything will go well.
5. I will be going out to Colby Point with Barrie Miller on Wednesday to check the valve adjustments on the wells.
6. Josh Stevens has completed all the non-pavement cleanup for the Hilltop water main break. He is contracting with R&D paving for the driveway.
7. Quarterly reports are done and have been submitted to DES.
8. American Leak Detection has scheduled us for August 27th to begin the leak detection.
9. Micah Seneca will be coming to start the service line identification this month.
10. We will be conducting lead and copper sampling next month.
11. This is the Precinct's 100th year anniversary.

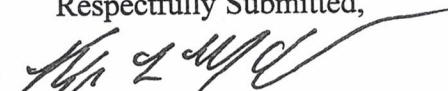

Workload

Backflow Testing

Hydrant Repair

Curb and Gate Box Locating

Respectfully Submitted,

Rob Thorp
