

System Usage	2024	2023
March	5,060,000	5,510,000
Daily Average	163,225	177,741
Max Daily	280,000	300,000
Year to Date	15,790,000	16,100,000

1. Meter reading is done and Rhonda has the bill out.
2. Employee reviews are done and ready for you.
3. Barrie Miller's crew is done with all three wells. Rod and I went out to the point and cleaned everything up. We are just waiting for Barrie's report.
4. The parts inventory count is done. I am waiting for EJ Prescott to finish pricing everything. Once I have that, the auditors will come out and check it.
5. Peter Swislosky called about the review of the plans for 406 Main St. I called Underwood Engineering, and they informed me they should have something back to me by Wednesday of this week.

**Workload**

Backflow Testing  
Meter Change Outs  
Meter Reading  
Well Rehab

Respectfully Submitted,

Rob Thorp
